the alarming financial reports from both East and West, and let go their holdings in a way approaching the panicky. Altogether, it was a day that left scars. A decline of 2½c, per bushel in about an hour would be a heavy falling off if the price had been \$1 instead of only 60c. That was the limit of the decline, and it closed with a net loss since yesterday of 1½c. Wheat was on new ground, and broke the record for cheapness. September has not sold before below 68½c, but to-day touched 66½c. The opening was about a quarter lower than yesterday's closing, and prices further declined 2½c, for September and 1½c, for December; then railied ic, eased off, and the closing was ½d½c, from the bottom. One small failure occurred, that of C. S. Lee, who has been bullish on wheat. There were two distinct spurts in the selling, and on each the trade went wild. During the last hour the trade recovered from the panicky feeling somewhat.

the panicky feeling somewhat.

The corn trade held a much narrower market than in wheat, yet transactions were important. The market got a break of %c. The close was at a recovery of %c. from the bottom figures. Oats were fairly active earlier in sym-

pathy with the two leading grain mar-kets, but the close was finally made at only a fraction under yesterday's latest For an hour there was a great market n provisions. The trade settled down to the belief that the Wright line of ribs

had been liquidated at a loss. The sell-ing of ribs this morning was begun by the packers. There was no support in the market.
